

# The UK's children's radio station entertains kids stuck at home

In these strange times, [Fun Kids](#) – the UK's children's radio station – is still operating on-air as normal, a reassuring voice for families across the UK.

We're reaching out because we have a brand new podcast series to share with you called [Stuck at Home](#), a free daily podcast for children aged 8 to 12 packed with things to do.

Listeners can join our presenters from across the UK (who are also stuck at home!) as they give kids and families fun and interesting things to keep them busy.

We've already had a number of parents, teachers and, importantly, children say how useful this free podcast is to them each day. If you want to help people stuck at home by talking about on your own social channels, it's easy to do. Most phones have podcast apps installed by default and you can subscribe for free there. Use this link when chatting with people and it'll open their podcast app auto-magically: [podfollow.com/stuck](https://podfollow.com/stuck)
